20MM

Extraordinary resistance.

LO MÁS ROBUSTO DE PERONDA

La última tecnología en producción cerámica se materializa en 20 mm, el porcelánico de mayor espesor con todos los beneficios de 4D Tech en el producto más robusto de Peronda.

MAYOR ESPESOR SIN COSTILLA

Somos pioneros en producir piezas de este espesor con prensa continua. Además de todas las características de un producto 4D, 20 mm permite la ausencia de costilla en la pieza.

RESISTENCIA EXTRAORDINARIA

La base plana del 20 mm ofrece un total contacto con la superficie de soporte. Sobre plots u otro material, el resultado es más resistente, pues toda la pieza absorbe el impacto.

PERONDA'S MOST ROBUST

The latest technology in ceramic production becomes a reality in 20 mm. The thickest porcelain with all the benefits of 4D Tech in Peronda's most robust product.

THICKER WITHOUT RIBBING

We are pioneers in producing pieces of this thickness with continuous press. Besides all the features of a 4D product, 20 mm allows for the lack of ribbing.

EXTRAORDINARY RESISTANCE

The flat base of 20 mm offers complete contact with the supporting area. Be it on plots or any other material, it is more resistant since the whole piece absorbs the impact.

Shaped tech

Real precision.

NATURAL

Las texturas, los recovecos, las vetas que crea la naturaleza son caprichosas, y esa es la fuente de su belleza. No hay dos iguales, y en su singularidad radica su belleza. La pasión por la búsqueda del detalle ha llevado a Peronda a desarrollar una tecnología capaz de reproducir la naturaleza en su máxima expresión, que es captando hasta el mínimo detalle. Los relieves son creados con tecnología digital perfectamente coordinada con la impresión gráfica para generar las piezas más naturales vistas en cerámica.

PRECISO

Donde ponemos el relieve ponemos la tinta. La precisión con la que imprimimos nuestras piezas es milimétrica, pues relieve y gráfica casan a la perfección para obtener un resultado técnicamente inmejorable.

REAL

Nada de ilusiones ópticas, esto es real. Lo que ves y lo que tocas es lo mismo. La veta está donde está el relieve y viceversa. Lo que siempre quisimos en cerámica, ahora lo consigue Peronda.

NATURAL

The textures, sinuosity and veining found in nature all follow capricious rules, and it is this random nature that makes them so very lovely. Nothing is ever identical and this singularity is the secret to nature's beauty. Peronda's passion for detail has led it to develop technology able to reproduce nature in its maximum of expressions, captured down to the tiniest of details. Digital technology is used to create textures that coincide perfectly with the printed pattern, leading to some of the most natural looking designs ever to be seen on ceramic tiles.

PRECISE

Our printing inks reach each and every part of the printed texture. The tiles are printed with absolute precision, carefully marrying the design with the corresponding texture to unparalleled technical effect.

REAL

There are no optical illusions. Everything is real. What you see and what you touch are one and the same thing. The printed veins coincide perfectly with the texture. Everything you have always longed for in ceramic tiles has now been achieved by Peronda.
